

City Wide Paving and Masonry,

We want you to know how pleased we are with all the work you did at our home. The new enlarged front porch and steps using the Cambridge pavers is a masterpiece. Your crew were so meticulous when setting each paver in place. We were amazed at how well they worked

All the blocks around the kidney shaped flower bed and around the azaleas in front of the new porch adds more beauty to our yard. Nicely done!!

The new asphalt driveway was very well done. The Belgium blocks on each side of the driveway were set in place with such care. Another masterpiece!!

What a nice polite group you have working for you. They were always on time and worked so well together.

We would not hesitate to use City Wide Paving & Masonry if we decide to have more paving done. The price was excellent.

Thank you for your excellent work.

Dear Mick,

When you promised to replace our gravel driveway with great paving at a good price, I did not imagine just what really fine work you and your crew would do.

A year has passed and the paving has withstood a terrible winter and a brutally hot summer... it really looks terrific. And, your suggestions for a new sidewalk and front porch really improved the curb appeal of the house.

You gave us an excellent job at an excellent price. You showed up when promised and completed the job on time. You were careful of our shrubs and lawn. What more could we ask!!

We would be most happy to talk to anyone who wants to know about the quality of your work.

Thanks again, and best regards,

Sincerely
Peter M. Sullivan

P.S. Now you'll have to come back and replace my old concrete driveway!
